

Press Release

The Go2IT Group and North Coast Computers are excited to announce a planned merger between the two companies.

In May of 2019, North Coast Computers will move into Go2IT Group headquarters located at [26260 Center Ridge Road in Westlake, OH](#), to form one highly skilled, versatile and efficient organization. This merger will result in improved resources and service offerings for North Coast Computers clients, including access to a large and experienced team of technology experts, a professional and locally based help desk, a more developed network of hardware distributors resulting in more competitive pricing, and a greater variety of support plan options, including Network Monitoring, Remote Support Only, or Unlimited Onsite and Remote Support Plans.

It is our goal to make this transition as easy and painless to our clients as possible. Joe Hart, President of North Coast Computers, will relocate his other businesses along with North Coast Computers into the Go2IT building and will continue to be involved in the new venture. North Coast employees Ken Coffman and Cecil Guerra will be joining the Go2IT staff and will continue to support North Coast Clients.

**Thank you for being a valued client
and we look forward to continuing to serve you!**
